NEWER GLADS FOR 1943

Again we present our annual Gladiolus descriptive list, and as usual we try to include in it mainly those newer varieties which appeal to us as outstanding, with a few slightly older kinds which are still unsurpassed. Each year we grow hundreds of varieties, but intend to list only the best of these, after careful trial. However, as is always the case, some Glads perform better in one locality than in another, and our recommendations may not always agree with results in other places. Altho we irrigate when needed, we do have plenty of hot weather in July and August to test the stamina of the newer varieties, and most Glads which do well here should perform satisfactorily in most places.

Terms: Retail orders of \$1.00 or more will be prepaid anywhere in the United States. 12 bulbs sold at 10 times the single price; with 3 or 6 at the dozen rate. Delivery after March 1st, or as soon as safe from freezing. Bulbs guaranteed true to name and free from thrips and disease. We guarantee your satisfaction, or your money back.

Retail List:

- ABE, A fine reliable late-midseason cut-flower variety. Somewhat like Nuthall but deeper and better color. L .08, M .06, (Blts 50 for .10)
- ALADDIN, Deep salmon or light scarlet with cream throat. Huge spikes, medium height. Admired by everyone. L .08, M .06, S .04, (Blts 40-.10)

- AMERICAN COMMANDER, Red. Said to be an improved Commander Koehl, but not quite as attractive to my mind. Healthier and makes better bulbs tho. L .20, M .15, S .10, (Blts 25 for .10)
- AMULET, Ruffled buff-apricot; attractive frilling. L .07, M .05, S .03, (Blts 100 for .15)

CHIEF MULTNOMAH, The most striking smoky I grow. Smoky-purple with red blotch; a strong, husky grower. L .06, M .04, S .02, (Blts 100 for .15)

COONEY LASS, A smaller, pinker Picardy which has not been particularly outstanding here; seems popular. L .25, M .15, S .10, (Blts 12 for .10)

CORAL GLOW, Bright coral orange. Tall, large, and has a color that is attractive & different. L .06, M .04, S .02, (Bulblets 100 for .15)

DONNA, Nice ruffled buff. A much improved Wasaga. L .10, M .07, S .05, (Bulblets 25 for .10)

EDVARD GRIEG, Strong-growing medium blue. Color could be clearer, but very much worthwhile. M .15, S .10, (Bulblets 4 for .10)

ELIZABETH THE QUEEN, Nice ruffled lavender. Not tall but O.K. M .75, S .40, (Blts 4 for .15)

ELLEN MARIE, An early deep salmon. Substance light but makes quite a nice early cut flower. L .07, M .05, S .03, (Blts 50 for .10)

ETHEL CAVE-COLE, Pale pink; strong grower. I prefer Legend or Garbo, as this seems rather plain. L .20, M .15, S .10, (Blts 10 for .15)

HINDENBURG'S MEMORY, Medium dark red which I like very much. M .07, S .05, (Blts 35 for .10)

HONOR, Clear lavender. Rivals Minuet as it grows here; apparently not so reliable everywhere. L .07, M .05, S .03, (Blts 100 for .15)

IRAK, Unique lavender-gray. A very odd smoky which most people like. L .05, M .03

ISOLA BELLA, Pale blue-lavender; huge spike with many open flowers. Attachment a little loose. L .05, M .03, S .02, (Bulblets 100 for .15)
